

## Your appointment

We are open and welcome you to our office:) Please be advised that new protocols are in place and **all visits to our office require an appointment.**

- Our office staff will ask you to please download, fill out and bring with you, paperwork from our website. This will help you to avoid time in our waiting room and reduce your contact time in our office.
- Please bring your most current glasses with you even if they are broken, along with glasses you wear most often and/or use for computer or hobby. If you are a contact lens wearer, please come to your appointment wearing your contacts.
- Please bring your current medication list.
- **Sick? Stay home:** If you are sick, have a cough, at high risk, or have a fever above 99.9, we can see you at a later date or see you virtually if you have a medical eye condition.

Thank you

Gresham and Sandy Vision Center
